

February 26, 2026

Dear Ma'am/Sir,

Good day!

For clarification regarding this Notice to Explain (NTE), I admit that I made a mistake because I trusted what was told to me without verifying it properly.

My intention was not to disobey management. I only wanted to address the needs of the team based on what our ROW personnel, Juve, told me.

This is what really happened,

On February 5, 2026, in Batangas, Juve told me:

"Ma'am Joh, I already secured the permits for Barangays 2, 5, and 19. I just did not report it in the GC because I was afraid I might not get reimbursed. They said they have experienced many times filing for reimbursement but it takes a long time. When we liquidate, the amount gets deducted if not approved. Also, we have not been given per diem for two months already, nag follow up po kami pero wala parin. My salary just circulates within the company because the budget release is delayed. Right now, Ma'am Joh, wala na po talaga akung budget. I have already used my own money, and I don't even have money for food because I am waiting for the release of my requested budget for permits."

then I asked her, "Where are the receipts and permits?"

Juve showed me a copy of the permit and told me that the Acknowledgement receipt (AR) ay na iwan sa kanilang bahay, but she assured me that there was an AR issued by the Barangay. She explained that only an Acknowledgment Receipt (AR) could be issued since it was considered a donation. (Tama naman based sa sinabi sa Barangay 4 Captain said they only issue AR's for donations, pero may Barangay seal and I know it was valid.)

She further said:

"Ma'am Joh, I really need the budget now. I don't have money anymore. I still need to go to Sto. Tomas tomorrow pero wala nako budget. There is an AR, Ma'am. I don't have a picture of it in my phone. When I get home at Caloocan, I will send you the photo immediately."

At that time, I trusted what she said and released ₱8,000 to her based on her assurance that there was an AR from the Barangay. I did not think negatively because she is my co-worker (kase if ever mag ka problema ka trabaho lang naman siya at pwede matanong agad.)

When I returned to the office, I asked her to submit the AR so I could liquidate the amount. I did not expect that the AR she submitted would be like that. When she gave it to me, I immediately showed it to Ma'am Marian, but as per their assessment, it was not acceptable. I was also shocked by the document.

Furthermore, there was an error in the AR — the amount written in numbers did not match the amount written in words.

I asked her about this discrepancy, and she said that her original request amount should have been ₱3,000, but since the receipt showed ₱2,000, she adjusted it. After that, she stopped responding to my calls, text messages, Viber messages, and phone calls.

I deeply regret that this situation has caused concern to management at hindi ko po intention na lumabag sa company policies. My decision was based on urgency, operational necessity, and trust in a team member who assured me that proper documentation existed.

I sincerely apologize for causing this problem. However, I assure you that I will resolve this issue. If it is proven that the receipt truly came from the Barangay, I will request a new and proper receipt. If it is proven otherwise, I will elevate the matter through legal.

I humbly ask for your understanding and fair consideration of the circumstances. I remain committed to upholding company policies and ensuring that such lapses in judgment will not happen again.

Thank you for your understanding.

Respectfully,

Jonna Catayao
